(19) Notwithstanding the provisions of subsection (18), any determination made under subsection (11) following an inspection of the books or documents of any importer or manufacturer, shall be deemed to have come into operation, in respect of the goods in question entered for customs and excise purposes, two years prior to the date on which the inspection commenced.

(2) If such value of any imported goods of a single denomination is-

- (a) in excess of one unit of account, such value shall for the purpose of assessing the amount of duty payable, be calculated to the nearest unit of account, an amount of 0.50 unit of account being regarded as less than one half of one unit of account;
- (b) less than one unit of account, such value shall be calculated as one unit of account.

(3) Unless the context otherwise indicates, any reference in this Act to customs value or to value for duty purposes, in relation to imported goods, shall be deemed to be a reference to value for customs duty purposes.

(4) The Director may determine the transaction value of any imported goods, which is required to be ascertained or may be determined as provided in section 76, and such determined value shall, subject to a right of appeal to the court, be deemed to be the value for customs duty purposes of the goods.

(5) The acceptance by any officer of a bill of entry or the release of any goods as entered shall not be deemed to be any such determination.

(6) Any determination so made shall be deemed to be correct for the purposes of this Act, and any amount due in terms of any such determination shall remain payable as long as such determination remains in force.

(7) The Director may whenever he deems it expedient amend or withdraw any such determination and make a new determination with effect from-

(b) any false declaration is made for the purposes of subsections (4), (5), (6) or (7), there shall be no liability for any underpayment of customs duty on any goods, where such underpayment is due to the acceptance of a bill of entry bearing an incorrect customs value, after a period of two years from the date of entry of such goods.

(10) Notwithstanding the provisions of subsection (9), any determination made under subsection (4) following an inspection of the books or documents of any importer shall be deemed to have come into operation in respect of the goods in question entered for customs purposes, two years prior to the date on which the inspection commenced.

(11) Notwithstanding the provisions of subsections (1), (4), (5) and (6), the value for the purposes of the duty specified in Section B of Part 2 of Schedule No. 1 shall, in respect of imported goods (other than goods entered in terms of item 412.18 of Schedule No. 4), be the transaction value thereof plus 15 per cent of such value, plus any non-rebated customs duty payable in terms of Part 1 and Section A of Part 2 of Schedule No. 1 on such goods, but excluding the duty specified in the said Section B of Part 2 of Schedule No. 1 on such goods.

(12) The provisions of subsection (1)(a) and (b) or subsection (3) of section 76 shall *mutatis mutandis* apply to the ascertainment or determination of the value for the purposes of the duty specified in Section B of Part 2 of Schedule No. 1 in respect of any imported goods entered in terms of item 412.18 of Schedule No. 4.

- (c) "identical goods", in relation to imported goods, means goods produced in the same country and by the same or a different producer as the imported goods and which are the same in all respects, including physical characteristics, quality and reputation but excluding minor differences in appearance, as the imported goods, but does not include goods incorporating or reflecting engineering, development work, art work, design work, plans or sketches undertaken in Botswana;
- (d) "price actually paid or payable", in relation to imported goods, means the total payment made or to be made, either directly or indirectly, by the buyer to or for the benefit of the seller for the goods, but does not include dividends or other payments passing from the buyer to the seller which do not directly relate to the goods;
- (e) "similar goods", in relation to imported goods, means goods produced in the same country and by the same or a different producer as the imported goods and which although not alike in all respects to the imported goods have, with due regard to their quality and reputation and the existence of a trade mark, like characteristics and like component materials which enable them to be employed for the same purposes and to be commercially interchangeable, but does not include goods incorporating or reflecting engineering, development work, art work, design work, plans or sketches undertaken in Botswana.

76. Transaction value

(1) Subject to the provisions of this Act, the transaction value of any imported goods shall be the price actually paid or payable for the goods when sold for export to Botswana, adjusted in terms of section 77, provided-

- (a) there are no restrictions as to the disposal or use of the goods by the buyer other than restrictions which-
 - (i) are imposed or required by law;
 - (ii) limit the geographical area in which the goods may be resold; or
 - (iii) do not substantially affect the value of the goods;
- (b) the sale or such price of the goods is not subject to any term or condition for which a value cannot be determined;
- (c) no part of the proceeds of any disposal, use or subsequent resale of the goods by the buyer will accrue directly or indirectly to the seller, unless and appropriate adjustment can be made in terms of section 77;
- (d) subject to subsection (5), the seller and the buyer are not related within the meaning of subsections (2), (3) and (4).

- (h) they are members of the same family.

(3) Persons who are associated in business with one another in that the one is the sole agent, sole distributor or sole concessionary, however described, of the other shall be deemed to be related only if they are so deemed in terms of subsection (2).

(4) Every importer of goods which are not exempted by regulations shall, when making entry of the goods, declare, in the manner prescribed by regulations, whether or not he is related to the supplier of the goods within the meaning of this section.

(5) Notwithstanding the provisions of subsection (1)(d), the fact that a buyer and a seller are related within the meaning of subsection (2) shall not in itself be a ground for not accepting the transaction value, where-

- (a) in the opinion of the Director such relationship did not influence the price paid or payable; or
- (b) the importer proves to the satisfaction of the Director that the transaction value closely approximates to one of the following values, namely-
 - (i) the transaction value of identical or similar goods sold at comparable trade and quantity levels to unrelated buyers in Botswana at or about the same time as the goods to be valued;
 - (ii) the value, ascertained in terms of subsections (12), (13) and (14) of identical or similar goods imported into Botswana at or about the same time as the goods to be valued;
 - (iii) the value, ascertained in terms of subsection (15), of identical or similar goods imported into Botswana at or about the same time as the goods to be valued.

(6) If the transaction value of any imported goods cannot be ascertained in terms of subsection (1), it shall be the price actually paid or payable for identical goods in a sale for export to Botswana at the same commercial level and in substantially the same quantity and exported at or about the same time as the goods to be valued, adjusted, with reference to

differences in any costs and charges referred to in section 77, on account of differences in distances and modes of transport to the port or place of export.

(7) Where no such sale is found, a sale of identical imported goods at either a different commercial or quantity level, or at a different commercial level and quantity level, adjusted to compensate for such differences, shall be used to ascertain the transaction value.

(8) If in the application of subsections (6) and (7) more than one transaction value is ascertained, the lowest such value shall be the transaction value of the goods to be valued.

(9) If the transaction value of any imported goods cannot be ascertained in terms of subsections (6), (7) and (8), it shall be the price actually paid or payable for similar goods in a sale for export to Botswana at the same commercial level and in substantially the same quantity and exported at or about the same time as the goods to be valued, adjusted, with reference to differences in any costs and charges referred to in section 77, on account of differences in distances and modes of transport to the port or place of export.

(10) Where no such sale is found, the provisions of subsections (7) and (8) shall *mutatis mutandis* apply.

(11) If the transaction value of any imported goods cannot be ascertained in terms of subsections (9) and (10), it shall be ascertained in terms of subsections (12) to (14) or, when it cannot be ascertained in terms of any of those subsections, it shall be ascertained in terms of subsection (15):

Provided that at the request, in writing, of the importer concerned the order of application of subsections (12) to (14) and (15) shall be reversed.

(12) If the imported goods or identical or similar imported goods are sold in Botswana in the same condition as that in which they were when imported, the transaction value of the imported goods in terms of this subsection shall be based on the unit price at which the imported goods or identical or similar imported goods are sold in Botswana in the greatest aggregate quantity, at or about the time of importation of the goods to be valued, by the importers thereof to persons not related to them, subject to deductions for-

- (a) commissions usually paid or agreed to be paid or additions usually made for profit and general expenses, including the direct and indirect costs of marketing the goods relative to sales in Botswana of imported goods of the same kind or class as the goods to be valued, irrespective of the country of exportation;
- (b) the cost of transportation and the cost of loading, unloading, handling, insurance and associated costs incidental to the transportation of the goods from the port or place of export in the country of exportation to the importer's premises in Botswana; and
- (c) any duties or taxes paid or payable in Botswana by reason of the importation of the goods or sale of the goods within Botswana.

(13) If neither the imported goods nor identical nor similar imported goods are sold at or about the time of importation of the goods to be valued, the transaction value of the imported goods in terms of this subsection shall, subject to the provisions of subsection (12), be based on the unit price at which the imported goods or identical or similar imported goods are sold in Botswana in the same condition as that in which they were when imported, at the earliest date after the importation of the goods to be valued, but not later than 90 days after such importation.

(14) If neither the imported goods nor identical nor similar imported goods are sold in Botswana in the same condition as that in which they were imported, then, if the importer so requests in writing, the transaction value of the imported goods in terms of subsections (12) and (13) shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in Botswana not related to the sellers of such goods, due allowance being made for the value added by such processing and the deductions referred to in subsection (12).

(15) The transaction value of any imported goods in terms of this subsection shall be based on a computed value, computed by means of information supplied by the producer and consisting of the sum of-

- (a) the cost or value of materials and manufacture or other processing in producing the goods;
- (b) the cost of-
 - (i) packing, including that of the labour or materials concerned; and
 - (ii) containers which are dealt with as being for customs purposes one with the goods in question;
- (c) the value, apportioned to the imported goods as deemed appropriate by the Director, with due regard to any relevant request by the importer, of any of the following goods and services if supplied directly or indirectly by the importer free of charge or at reduced cost, for use in connection with the production and sale for export of the imported goods, in so far as such value has not been included in the price actually paid or payable, namely-
 - (i) materials, components, parts and similar articles forming part of the imported goods;
 - (ii) tools, dies, moulds and similar articles used in the production of the imported goods;
 - (iii) materials consumed in the production of the imported goods;
 - (iv) engineering, development work, art work, design work, plans and sketches undertaken elsewhere than in Botswana and necessary for the production of the imported goods;
- (d) the cost of transportation, loading, unloading, handling and insurance and associated costs incidental to delivery of the imported goods at the port or place of export in the country of exportation and place those goods on board ship or on any vehicle, or in a container as defined in section 2(2), at that port or place
- (e) an amount for profit and general expenses equal to that generally applicable in sales of goods of the same class or kind as the imported goods, which are made by producers in the country of exportation.

(16) Where the transaction value of any imported goods cannot be ascertained in terms of the provisions of subsection (15), the Director may determine such value under section 75(4) on the basis of a previous determination or, where there is no previous determination, by such application as he may deem reasonable of any manner of ascertaining the transaction value in terms of subsection (1), (6), (9), (12) or (15), but no such determination shall be based on-

- (a) the selling price in Botswana of goods produced in Botswana;
- (b) a system which provides for the acceptance for customs purposes of the higher of two alternative values;
- (c) the selling price of goods on the domestic market of the country of origin or of exportation of the imported goods;
- (d) the cost of production, other than computed values which have been determined for identical or similar goods in accordance with subsection (15);
- (e) the price of the goods for export to a country other than Botswana;
- (f) a system of minimum customs values; or
- (g) arbitrary or fictitious values.

(17) For the purposes of subsection (12)(b) or (15)(d), goods which are exported to Botswana from any country but pass in transit through another country shall, subject to any conditions which may be prescribed by relations, be deemed to have been exported direct from the first-mentioned country.

(18) For the purposes of subsection (12)(b) or (15) (d), the port or place of export referred to therein shall be the place in the country of exportation where the goods in question-

- (a) are packed in a container as defined in section 2(2) or, if not so packed in a container, placed on board ship or on any vehicle which conveys them from or across the border of that country; or
- (b) if they are ships or vehicles moving under their own power, finally leave that country for Botswana.

77. Adjustments to price actually paid or payable

(1) In ascertaining the transaction value of any imported goods in terms of section 76(1), there shall be added to the price actually paid or payable for the goods-

- (a) to the extent that they are incurred by the buyer but not included in the price actually paid or payable-
 - (i) any commission other than a buying commission;
 - (ii) brokerage;
 - (iii) the cost of packing, including that of the labour and materials concerned;
 - (iv) the cost of containers which are dealt with as being for customs purposes one with the goods;
- (b) the value, apportioned to the imported goods as deemed appropriate by the Director, of any of the following goods and services if supplied directly or indirectly by the importer free of charge or at reduced cost, for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable, namely-
 - (i) materials, components, parts and similar articles forming part of the goods;
 - (ii) tools, dies, moulds and similar articles used in the production of the goods;
 - (iii) materials consumed in the production of the goods;

- (c) royalties and licence fees in respect of the imported goods, including payments for patents, trade marks and copyright and for the right to distribute or resell the goods, due by the buyer, directly or indirectly, as a condition of sale of the goods for export to Botswana, to the extent that such royalties and fees are not included in the price actually paid or payable, but excluding charges for the right to reproduce the imported goods in Botswana;
- (d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller; and
- (e) to the extent that they are not included in the price actually paid or payable for the goods, the cost of transportation, loading, unloading, handling and insurance and associated costs incidental to delivery of the goods at the port or place of export in the country of exportation and placing those goods on board ship or on any vehicle, or in a container as defined in section 2(2), at that port or place.

(2) In ascertaining the transaction value of any imported goods in terms of section 76(1), there shall be deducted from the price actually paid or payable for the goods, to the extent that they are included therein, amounts equal to-

- (a) the cost of transportation and the cost of loading, unloading, handling, insurance and associated costs incidental to the transportation of the goods from the port or place of export in the country of exportation to the place of importation in Botswana;
- (b) any of the following costs, charges or expenses if identified separately from the balance of the price actually paid or payable for the goods, namely-

(7) Notwithstanding the provisions of subsection (6), any determination made under subsection (3) following upon an inspection of the books, accounts and other documents of any manufacturer, wholesaler or purchaser or any seller or buyer contemplated in subsection (1) or (2) as the case may be, shall be deemed to have come into operation, in respect of the goods in question entered for the purposes of this Act two years prior to the date on which the inspection commenced.

- (ii) the goods concerned shall be deemed to have qualified at the time duty was paid on such goods in all respects for rebate; and
- (iii) the duty paid on the goods concerned, shall be deemed to have been paid on the date on which the exemption referred to in subparagraph (i) was granted.

(13) Notwithstanding anything to the contrary in this Act contained, the Director may, in respect of Schedule No. 5 or 6 for the purpose of calculating the amount of duty refundable on any imported or excisable goods or used in the manufacture, reconditioning, mixing or blending of any goods exported or marketed in Botswana, determine the quantity of such exported goods or such goods marketed in Botswana which shall be deemed to have been produced, reconditioned, mixed or blended from a given quantity of such imported or excisable goods or the quantity of such imported or excisable goods or which shall be deemed to have been used in the production, reconditioning, mixing or blending of a given quantity of such exported goods or such goods marketed in Botswana.

(14) No goods manufactured from excisable goods under rebate of duty specified in any item of Schedule No. 6 shall be used in the place of such excisable goods in the manufacture of any other goods if a rebate of duty to a lesser extent has been specified in any item of the said Schedule in respect of such excisable goods when used in the manufacture of such other goods.

Provided that no refund shall be paid if the quantity of distillate fuel to which the application for such refund relates is less than such quantity as may be prescribed by regulation; and

- (ii) in all other cases, within a period of six months from the date on which such refund first becomes due:

Provided that the Director may, in such circumstances as he may consider exceptional, pay a refund or drawback after expiration of the relevant period.
