No. 10 AYK.SNN

Circular
On
Ban of Use, Advertisement, Display and Sale of Tobacco, and Collaboration with Tobacco Industry

So far, the Ministry of Education, Youth, and Sport noticed that public and private educational facilities have well complied with the Circular No. 31 dated 20 November 2018 on Ban of Use, Advertisement, and Display and Sale of Tobacco and Alcohol Products within campuses of public and private educational facilities. However, there are few educational facilities misunderstood and accepted supports from charitable persons who are tobacco industry, allowing tobacco industry to display commercial logos in programs belong to educational facilities.

In this spirit, the Ministry of Education, Youth, and Sport instructs all institutes under the Ministry, municipal and provincial departments of education, youth, and sport, city and districts offices of education, youth, and sport, public and private educational facilities in all levels to:

1. Widely disseminate ban of use, display and sale, advertisement of tobacco products within campuses of public and private educational facilities in all levels.
2. Pay highly attention to educate knowledge about harms caused by use and inhale of tobacco products.
3. Not to partner with tobacco industry no matter of what purpose, including charity activity, study visit, internship, sharing experience, or research and study.
4. Not to accept support, sponsorship, or come to understanding memorandum with tobacco industry for any form of educational activities.
5. Not to allow venue or campus of public and private educational facility for any exhibition or event which is belong to tobacco industry.
6. Join in hand to eliminate use of tobacco products in all forms.

Public and private educational facility carrying out any activity which is not in compliance with this circular, shall end it immediately, and make correction in order to comply with this circular.

Upon receiving this circular, directors of institutions, and rectors of universities and institutes shall well implement this circular.
