

Unofficial Translation (excerpt)

Health Promotion Law 2002

Article 25:

Prevention from Passive Smoking Exposure: Persons who manage schools, gymnasiums, hospitals, theatres, public assembly halls, gallery spaces, department stores, offices, government buildings, restaurants and bars, and other facilities used by numerous people should try to take whatever steps are necessary to prevent passive smoking exposure (i.e. being forced to breath other persons' tobacco smoke in indoor or functionally equivalent spaces) for the users of such facilities.
