To adopt measures consistent with the objective of the World Health Organization’s Framework Convention on Tobacco Control (FCTC), to which the Republic is a party, to protect present and future generations against the devastating health, social, environmental and economic consequences of tobacco consumption and exposure to tobacco smoke; to amend, repeal and replace sections of Chapter 10 of Title 11 of the Palau National Code and for other related purposes.

THE PEOPLE OF PALAU REPRESENTED IN THE OLBIIL ERA KELULAU DO ENACT AS FOLLOWS:

1. Legislative findings and purpose. Finding that the use of tobacco can cause devastating health and economic losses to individuals, families and the community, that the diseases associated with the use of tobacco result in lost productivity, premature deaths, and significant healthcare costs, and that an alarming number of children, youth and adults in Palau are current users of any tobacco product, the Olbiil Era Kelulau believes it is time to enact legislation to protect the health and well being of Palau’s citizens by updating the current tobacco-related laws codified in Chapter 10 of Title 11 of the Palau National Code and enacting additional appropriate and effective laws.

Additionally, the Olbiil Era Kelulau finds that the Republic of Palau’s laws relating to the licensing and sales of tobacco need to be revised and updated for more effective and efficient licensing and enforcement.

The Republic’s current laws regulating tobacco control originated from the Alcoholic Beverage and Tobacco Products Control Act, and alcohol and tobacco control laws are combined in the same chapter of the PNC. This bill separates the tobacco laws from the alcohol laws and creates new tobacco control laws which reflect the Republic’s commitment to the World Health Organization’s Framework Convention on Tobacco Control.
